Hygiene chairs

EASY™

Hygiene chair

The advantage of GATE hygiene chairs is that they can be quickly adapted to suit the needs of every individual and situation. Adjust seat height manually or electrically: angle the seat with the tilt function and customize it with accessories.

Designed to meet needs

GATE's new hygiene chairs have a unique pillar design for quick and easy seat height adjustment. EASY™ fits most people no matter how tall, and staff will not need to waste time and energy looking for a suitable hygiene chair for each situation.

Everyday life improved

EASY™ never compromises on user comfort and personnel ergonomics. Individually adaptable comfort and function makes the hygiene chair a much more pleasant experience for patient and healthcare staff alike. EASY™ is manufactured from corrosion-proof materials and can withstand high pressure washers (protection rating X5).

Best possible comfort

Users often sit in a chair for a long while when washing or taking a shower, and this can become very trying. EASY™ was created to provide extremely high comfort. The seated EASY™ user is able to assume a position for the best possible comfort. The hygiene chair quickly adapts to a personal fit with the aid of easily operated settings, and all

models are height-adjustable. What's more, its ability to tilt helps take the weight off the user.

The seat and back are adapted for an upright posture that does not close the pelvis. The ergonomic design minimizes pressure on the hips, tendons and blood vessels, while its rounded front edge contributes to a comfortable leg position.

The telescoping raise/lower pillars are unique to EASY™. Its shape and function contribute to an open design that makes for easy use.

Which model suits your needs?

A broad selection of models makes possible the creation of a complete "fleet" of hygiene chairs. Because all models are suitable for most users regardless of their height or weight, the number of chairs and types of chair can be reduced allowing the addition of one or two more advanced models for demanding care situations.

EASY™ is our most versatile hygiene chair – it is adjustable in height and angle of inclination. EASY™ is available in two versions – with a conventional backstrap/neck support (SB) with a higher, padded water-repellent back with built-in neck support. Amfi XL was designed for the bigger, heavier patient, while Basic is our simplest version (see separate product sheet).

EASY™ SoftBack

EL

EASY™ is a well-designed hygiene stool with a great many advanced functions. The hygiene chair is designed with telescoping pillars to create as much space and flexibility as possible for care personnel. The chair is suitable for use in shower and toilet environments in care institutions and at home.

EASY™ can be raised, lowered and tilted forwards and backwards even with the user in the chair. It's functions make the EASY™ Unequalled aid for personnel while also providing great comfort for the user (for example, its ability to tilt really helps take the strain).

EASY™ is available with our new, soft Comfort seat with an opening at the rear for a more natural, hygienic working method.

Integrated seat with opening to the rear (accessory)

The seat's ergonomic design and flexible structure provide the best possible comfort the user, while the opening to the rear provides the carer with a natural, more hygienic working method.

Standard delivery version, green plastic seat

Individual fit

EASY™ has a neck support that is adjustable in height and from side to side for comfortable support and individual fit. stöd och personlig passform.

New feature!

Adjustable back-strap

The soft, comfortable back-strap relieves pressure on bony areas. It is easily adjustable for best support and seat depth. Machine washable.

Lockable armrests

The armrests can be flipped up or locked in their lower position. This is for safety when the chair is tilted.

Tilt function

EASY™ can be inclined 5 degrees forward and 30 degrees backward. This makes it easy to use when sitting down, getting up, and for personal hygiene. The tilt function also improves the working environment and reduces strain on employees.

Plastic or metal

A plastic bedpan and guides are available as accessories for EASY™. Note that guides are available in different versions to suit plastic or metal bedpans.

See accessories

Swing-away, detachable footrests

The footrests can be swung away and detached and there is also a heel strap provided as standard to prevent the patient's foot from slipping from the footrest during tilting.

Adjustable seat height

An infinitely variable seat height from 53 all the way to 93 cm means the chair will fit every patient and reduce staff workload to a minimum.

Directionally locking castor

The right front castor is directionally lockable for easy manoeuvrability.

Lockable castors

All castors are lockable except the directionally lockable castor

Pillars

The telescoping aluminium pillars have an open design that allows water and dirt to simply run through.

Easy control

Electrical height adjustment is via hard-wired controller with a high ingress protection rating (IP65) for excellent safety.

All hygiene chairs may be ordered with 75, 100 or 125 mm castors – specify when ordering. (Unless otherwise specified, the heights shown below refer to products with 125 mm castors). Examples of possible parts combinations are shown below.

Technical specifications

CE marked according to MDD 93/42/EEC.

Part No.	Product	Width, external	Max user weight	Seat height	Width between armrests	Seat depth
56-270	EASY™ SB	65 cm	150 kg	53-93 cm	50 cm	45 cm

Accessories, see p. 7

EASY™ HighBack

EL

New
feature!

EASY™ in the high-back version (HB) is a development of the conventional concept using the back strap/neck support already available. This hygiene chair is fitted with a high, padded, water-repellent back complete with neck support (available in two versions). The high backrest provides soft yet stable support and its lower section is fitted with a pliant lumbar support for additional comfort.

EASY™ HHB is designed with telescoping pillars to create as much space and flexibility as possible for care personnel in the performance of their work.

EASY™ is available with our new, soft Comfort seat with an opening at the rear for a more natural, hygienic working method.

Integrated neck rest

The integrated height-adjustable neck rest is available in two sizes, M and L.

High, upholstered backrest

The high backrest provides soft yet stable support. It is easy to clean and can be replaced as necessary.

Tilt-funktion

EASY™ can be inclined 5 degrees forward and 30 degrees backward. This makes it easy to use when sitting down, getting up, and for personal hygiene. The tilt function also improves the working environment and reduces strain on employees.

Pillars

The telescoping aluminium pillars have an open design that allows water and dirt to simply run through.

Swing-away, detachable footrests

Flip-up, swing-away, detachable footrests with a heel restraint to prevent the patient's foot from sliding off in the tilt position are fitted as standard.

Directionally locking castor

The right front castor is lockable for easy manoeuvrability.

Easy control

Electrical height adjustment is via hard-wired controller with a high ingress protection rating (IP65) for excellent safety.

Lockable armrests

The armrests can be flipped up or locked in their lower position. This is for safety when the chair is tilted.

Pliant lumbar support

The lower section of the backrest is fitted with a pliant lumbar support for additional comfort.

Integrated seat with opening to the rear (accessory)

The seat's ergonomic design and flexible structure provide the best possible comfort the user, while the opening to the rear provides the carer with a natural, more hygienic working method. Standard delivery version, green plastic seat

Lockable castors

All castors are lockable except the directionally lockable castor.

All hygiene chairs may be ordered with 75, 100 or 125 mm castors – specify when ordering. (Unless otherwise specified, the heights shown below refer to products with 125 mm castors). Examples of possible parts combinations are shown below.

Technical specifications

CE CE-märkt enligt MDD 93/42/EEC.

Part No.	Product	Width, external	Max user weight	Seat height	Width between armrests	Seat depth
56-271	EASY™ HB	65 cm	150 kg	53-93 cm	50 cm	45 cm

Accessories, see p. 7

Amfibi XL

EL

Amfibi XL was designed for the bigger, heavier patient and therefore provides extra space and strength and electrical height adjustment. Maximum user weight is 250 kg.

**Can handle
250 kg!**

Plenty of room

Maximum user weight for the Amfibi XL is 250 kg and seat depth is larger than standard. The hygiene chair has also been widened to 64 cm between armrests to provide extra room and good stability.

Durable materials

Manufactured from corrosion-proof materials.

Lockable armrests

Amfibi XL has armrests that can be flipped up and locked in position to make it easier for the patient to be of help with the transfer.

Easy control

Electrical adjustment via a cabled remote which is sealed to a high protection class (IP65) for optimal safety.

Built-in soft seat

The XL's seat and back are adapted for an upright posture that does not close the pelvis. The soft, ergonomic seat (PU) is standard and built in to the chair. It minimizes pressure on the hips, tendons and blood vessels and is designed to suit both men and women.

Adjustable back-strap

Adjustable backrest The soft, comfortable back-strap relieves pressure on bony areas. It is easily adjustable for best support and seat depth. Machine washable.

Easy to clean

The seat is easy to remove and clean, while its rounded front edge contributes to a comfortable leg position.

Directionally locking/lockable castors

One of the castors can be locked directionally for improved safety during transit. The other castors are lockable.

Swing-away, detachable footrests

The footrests flip-up, swing-away and are easily detachable.

Electric height adjustment

Amfibi XL has a unique pillar design for quick and easy seat height adjustment. The seat can be raised by up to 81 cm from its lowest position and thus requires minimum effort from care personnel.

Guides and waste containers are available as accessories.

All hygiene chairs may be ordered with 75, 100 or 125 mm castors – specify when ordering. (Unless otherwise specified, the heights shown below refer to products with 125 mm castors). Examples of possible parts combinations are shown below.
